DETAILED ACTION

Claim Objections

Claim 1 is objected to. The term "section" in line 4 should be "second."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 5-6, 8, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by McCurley et al.(6175233). McCurley et al discloses the same invention as claimed: A position sensor assembly comprising: a first pole piece (upper section of 26 or 36); a second pole piece (lower section of 26 or 36); a primary sensor (32 or 22) disposed between the first and section pole pieces, wherein said first and second pole pieces form a primary flux path through the primary sensor and permit a leakage flux path outside the primary sensor; and a secondary sensor (22 or 33) disposed in the leakage flux path (there must be a leakage flux path of magnets (21, 23) or (31, 33); voltage detector (see col.3 lines 25-44).

Claims 1, 3, 5-8, 11, 16 and 28-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Alfors (5694039). Alfors discloses the same invention as claimed: A position sensor assembly comprising: a first pole piece (112); a second pole piece (110); a primary sensor (134 or 135) disposed between the first and section pole pieces, wherein said first and second pole pieces form a primary flux path through the primary

sensor and permit a leakage flux path outside the primary sensor; and a secondary sensor (135 or 134) disposed in the leakage flux path (there must be a leakage flux path of magnet 30.

Although specific columns, figures, reference numerals, lines of the reference(s), etc. have been referred to, Applicant should consider the entire applied prior art reference(s).

Allowable Subject Matter

Claims 2, 4, 9-10, 12-15 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

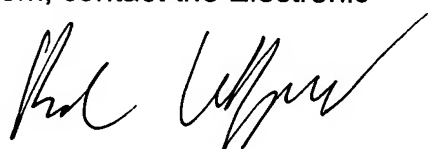

Claims 18-27 are allowed.
